Meghalaya is also known as the 'Scotland of the East', Meghalaya has a fascinating history as it was formed in 1972 by carving out two districts from Assam; the United Khasi and Jaintia Hills and the Garo Hills. The state is very close to Bangladesh, which is why during your Meghalaya trip, there will be a plethora of landmarks and attractions which will be very close to the neighbouring country.

Besides the geographical aspects, Meghalaya is also famous for its rich cultural heritage, customs, beliefs and traditions. There are three major tribes in Meghalaya; the Khasi, the Garo and the Jaintias and all have their own unique culture and heritage, which they pass down to generations. One exciting thing about the culture is that in Meghalaya the lineage is traced through the mother's side, which means that everything, from property and wealth to responsibilities, they are passed down from generation to generation from the mother's side. Therefore, women have a prominent role in the culture of Meghalaya. What makes it even better is that you can witness it all during your Meghalaya trip with our Meghalaya tour packages.
